Université Catholique de Lille

Founded in 1875, the *Université Catholique de Lille* is a **federation of varied institutions of higher education** and research, characterized by interdisciplinarity and anchored in humanist values.

The *Université Catholique de Lille* is **France's largest private not-for-profit university**.

It gathers 5 faculties, several "Grandes Écoles" (including 2 triple-crown-awarded business schools and 2 engineering schools), multiple institutes, healthcare facilities and a university hospital group.

The University places a strong emphasis on “whole person education” and **empowering students** to develop their skills, knowledge, and values through a personalized educational life experience.

In close collaboration with its students and partners, the University accomplishes its mission through **innovative research and pedagogy**.

The University is contributing to the **construction of the world** of tomorrow as a central aspect of its commitment to mutual care.

Research

The **research efforts** of the *Université Catholique de Lille* are focused mainly on societal and energy transition, innovative ecosystems, ethics, new economic systems, and health and care in today’s society.

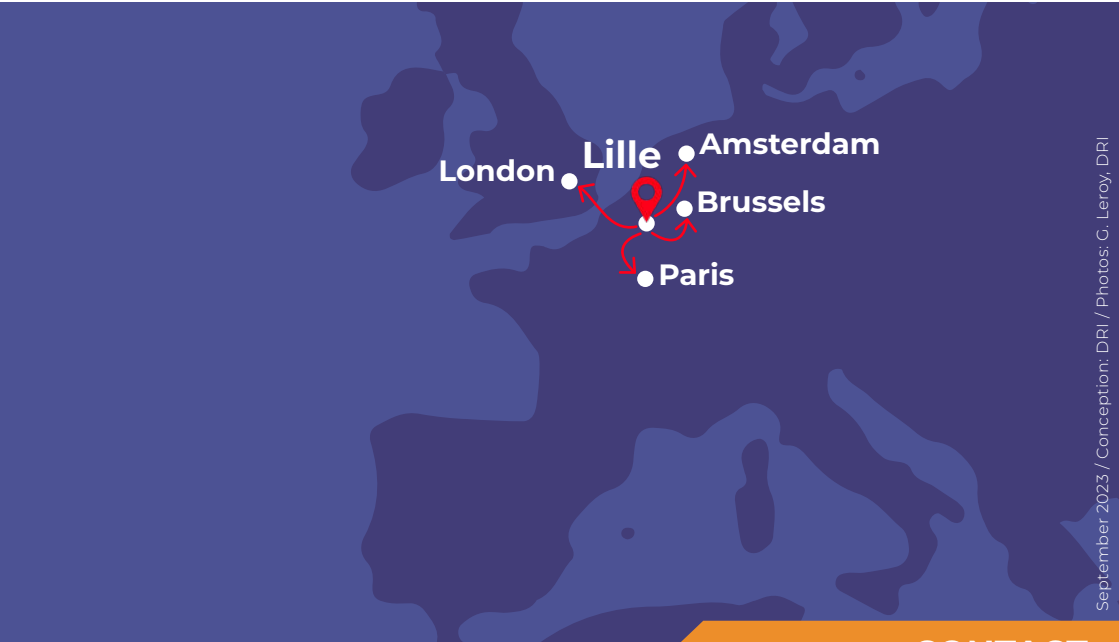

This includes the innovative “Live TREE” project, a **transition program** towards a more respectful and sustainable environment and economy.

A vibrant and dynamic city at the crossroads of Europe

Home to the *Université Catholique de Lille*, Lille is a “human-sized” city with under 250,000 inhabitants at the heart of an **European metropolis connecting Paris, London and Brussels.**

Since its designation as a European Capital of Culture in 2004, *Lille Métropole* has sponsored many cultural events.

The region boasts a significant number of theatres and other cultural spaces, including some **world-renowned museums.**
